1. COMMUNITY COLLEGE- THE CONCEPT

The Community College provides an alternative education system which aims to empower individuals through appropriate skill development leading to gainful employment in collaboration with local industries, NGOs, educational institutions and the community.

A Community College may be defined as any institution accredited to award an Associate Degree (AD) as its highest degree. Community Colleges can serve as a bridge from school to college by providing courses for transfer towards degree programme. The cost of education is significantly less in Community Colleges than other higher learning institutions and Universities. In Community Colleges, one can explore different subject areas before committing to a programme, without having to be so concerned about finances. The Community Colleges can offer intensive guidance & counseling which can help the learner to assess his/her abilities, interests and educational options. Now, there are more than 100 Community Colleges established all over India.

These Community Colleges are housed and being runned by universities, NGOs, autonomous institutions, charitable trusts, missionaries etc. Community Colleges (in certain parts of India) emerged out of the growing needs of the unemployed youth and disadvantaged sections of the community who usually fail to acquire skills for gainful employment.

2. SRC COMMUNITY COLLEGE

The SRC Community College is an institution established by State Resource Centre, Kerala for providing locale specific tailor made & need based academic programmes leading to Advanced Diploma, Diploma and Certificate programmes to the needy. The SRC Community College will serve as an extension centre for educational activities undertaken by SRC, Kerala beyond literacy and basic education. As an agency in the field of Non-formal and Adult Education, the activities of SRC can be strengthened and accredited through the Community College.

7. DETAILS OF ACADEMIC PROGRAMMES

7.1 CERTIFICATE IN YOGA

Yoga is a spiritual discipline based on an extremely subtle science, which focuses on bringing harmony between mind and body. It is considered as an art and science for healthy living. As per Yogic scriptures, the practice of Yoga leads to the union of individual consciousness with that of the Universal Consciousness, indicating a perfect harmony between the mind and body. The aim of Yoga is Self-realization, to overcome all kinds of sufferings leading to 'the state of liberation' (Moksha) or 'freedom' (Kaivalya). Living with freedom in all walks of life, health and harmony shall be the main objective of Yoga practice. "Yoga" also refers to an inner science comprising of a variety of methods through which human beings can realize this union and achieve mastery over their destiny.

Yoga provides tools through which one can cope with pain and helps to counter the feeling of helplessness and depression. Yogic breathing and stretching exercises have been seen to result in better mental and physical energy and improved mood. The mental performance also increases with yoga and doctors suggest that yoga can enhance cognitive performance. The certificate in yoga offered by SRC Community College aims at the skill building of people in yogic practices. It also aims to strengthen the understanding of people on the philosophical background of yogic science. Those who successfully complete the certificate programme are eligible for the post of yoga instructor.

7.5 CERTIFICATE IN MANAGEMENT OF SPECIFIC LEARNING DISORDERS

Now- a-days parents and the school authorities are well aware of the problems of the learning backwardness of the children who are suffering from various 'Learning Disabilities' (LD).

This problem need to be addressed at an early stage to help such students to succeed in their academics and future life. But trained experts or training centres on LD are very rare. In order to assess, diagnose and provide suitable remedial support to the children with LD, the service of trained Learning Disability experts and professionals is necessary. This situation made SRC to think about starting a Certificate course and a Diploma course on Learning Disabilities in distance mode, so that the working teachers, prospective teachers, aspirant teachers and unemployed educated persons can participate in this course. This course is more relevant in the context that CBSE schools are looking for experts to support the children with SLD and Special Education Needs (SEN).

This certificate course will help the participants to acquire necessary knowledge about various disabilities and expertise in identifying and providing support for the children with Specific Learning Disabilities. We hope that this course will provide a vast conceptual understanding and necessary practical knowledge to work as an expert in the field of learning disability. As this course is designed as a credit system, those who pass the CMLD course can pursue the Diploma course in Learning Disabilities conducted by the SRC by spending 6 months more to become a professional in this field.

7.25 DIPLOMA IN MONTESSORI TEACHER TRAINING

Montessori education is an educational approach developed by the Physician and Educator, Dr. Maria Montessori. It is based on self-directed activity, hands-on learning and collaborative work. In Montessori classrooms children make creative choices in their learning, while the classroom and the teacher offer age-appropriate activities to guide the learning process. Children work in groups and individually to discover and acquire knowledge and skills through exercises of daily life, sensorial activities, working on Arithmetic and language materials, including cultural areas. This Method nurtures each child's individual strengths and interests. English medium schools are searching for appropriately trained Montessori teachers with good communication skills to work in their nursery/KG/ Kindergarten sections. But there is scarcity of such trained teachers. As the majority of PPTTC / DPSE students are trained in regional language medium, they are not preferred in English medium schools. Government and aided school PTAs are also running pre-school classes attached to the primary classes. So there are plenty of job opportunities for the well trained Montessori Teachers.

In this situation considering the demands from various corners, SRC Community College is organizing two well-planned Montessori based courses—DMTT and ADMCEd. These courses are to educate Teachers who can facilitate the learning of our new generation children by respecting their unique personalities strengths and weaknesses and providing them the strong foundation of academic excellence, communication skills, good social behaviour, grace and courtesy. This course not only helps the educated unemployed women to become a teacher, but gives confidence to start a school of their own.

7.40 CERTIFICATE IN LIGHTING DESIGN

Light is an integral part of our everyday life and intelligent use of light for creative and arts industry has become indispensable. In our country, technicians and designers of light learn from their career and experience rather than being formally trained at an institution of quality and expertise. The requirement of qualified professionals in the field is increasing and yet we do not have an institution for training professionals in the field. Light is the inevitable part of our daily life and the dimensions and mood of our life can be changed depending on the light that is provided.

Programme on “Certificate in Lighting Design” can change the focus of life of the course aspirant in a positive manner through the varied and vast job opportunities. There is so much to be explored in the lighting industry in India and abroad. A light designer with an aesthetic sense and knowledge of the trade can enhance the visibility and quality of the performance, whether it is theatre, dance or even architectural lighting. There is a very high demand of light designers nowadays but qualified and trained designers are lacking. This is mainly due to lack of institutions which provide light designing courses. Through this course, knowledge is imparted for aspirants both in the creative and technical side. Students will learn how creativity and technical knowhow can be put together in an efficient manner to produce the best outcome. To put it simply, aspirants will learn how to apply their art and craft in light designing.

This newly designed course is specially developed for those who have passion along with creative sense and technical knowledge. After completing this 6 months course, you can easily be a professional lighting designer, either through self-employment or working for an institution dedicated for lighting design in India or abroad. This area is still not explored fully and the opportunities in front of the course aspirant are vast.

7.47 CERTIFICATE IN STUDENT COUNSELING

The general counselling attitudes are the same for every type of counselling. Attitudes are converted into skills at the execution level. They form the substratum of the counselling practice. When one thinks of counselling what usually comes to the mind is adult counselling. But students too require psychological help. Students want to be noticed and they'll want to get the attention to feel significant both at home and school. Due to lack of this attention students face developmental problems. Thus, educational counselling and guidance are essential to all types of children for their interpersonal skills, intellectual growth and self-acceptance to become responsible citizens of tomorrow. Apparently, teachers, social workers and all others dealing with student empowerment must have the skills of counselling the students in line with the modern technological and environmental know-hows of the fast-growing world. 7.65 BASIC PROGRAMME IN INFECTION PREVENTION AND CONTROL

Infection control addresses factors related to the spread of infections from patient-to-patient, from patients to staff and from staff to patients, or among-staff within the Health Care Organisations (HCO's). Infection prevention and control practices are important in maintaining a safe environment for patients by reducing the risk of the potential spread of disease from person to person. These practices are designed to reduce the risk of hospital acquired infections and to ensure a safe and healthy hospital environment for our patients, healthcare providers and visitors. In this context, it is important for healthcare staff working in any health care setting to have genuine and in depth knowledge regarding "infection Prevention & control".

This Basic certificate programme mainly aims at developing awareness in implementing and following policies & procedures for preventing the spread of infectious agents, and to perform duties to contain outbreaks and epidemics in health care settings.
