GUIDELINES FOR WRITING THE ASSIGNMENTS

You will find it useful to keep the following points in mind:

1. Planning: Read the assignment carefully. Go through the units on which they are based. Make some points regarding each question and then rearrange these in a logical order. Write the answers in your own words. Do not reproduce passages from the units.
2. Organisation: Be a little more selective and analytical before drawing up a rough outline of your answer. In an essay-type question, give an adequate attention to your introduction and conclusion. The introduction must offer your brief interpretation of the question and how you propose to develop it.

The conclusion must summarise your response to the question. In the course of your answer, you may like to make reference to other texts or critics as this will add some depth to your analysis.

Make sure that your answer:

- a) is logical and coherent;
- b) has clear connections between sentences and paragraphs;
- c) is written correctly, given adequate consideration to your expression, style and presentation;
- d) does not exceed the number of words indicated in your question.

Note: *Remember that the submission of assignments is a precondition of permission for appearing examination. If you have not submitted the assignments in time, you will not be allowed to appear for the examination.*
